Re: Mediation Training Program

Dear Steven:

In retrospect nearly a year later, I find that your program was my most important forty hours of 2007. I had some trepidation signing up for the training as it seemed like such a long time to be away from my practice. As it has turned out, I can say with confidence that it was an excellent investment of my time -- I have drawn from the course nearly every day. The comprehensive curriculum, practical advice, well-designed exercises, opportunities for active participation, and feedback from you and other experienced mediators should be found well worth the time and tuition of anyone with an interest in the field.

Very truly yours,

Mark P. Schreiber
